Experience

Box

Product Designer, Web & Desktop

June 2022 – Present

Owned the design and execution of the Search experience redesign, significantly enhancing functionality and usability for users in locating content efficiently in Box. Crafted a vision and executed on designs for the Desktop app, ensuring alignment across platforms and with overarching strategic goals.

Asana

Product Designer, Automation

July 2020 – June 2022

Led design for the Automation team, building features that empower teams to automate their workflows with a simple, no-code interface. Led the end-to-end design of Task Templates in Asana, a 0->1 feature empowering teams to standardize workflows.

Product Design Intern, Automation

June 2019 – December 2019

Shipped iterations of key features such as Asana Rules and Forms. This involved identifying opportunities, user research, designing solutions, and collaborating with engineers to deliver successful product launches.

eBay

Product Design Intern, Fashion

May 2018 – August 2018

Led user testing sessions to identify opportunities in the Fashion vertical. Designed concepts to enhance user experience by surfacing recommended listings based on outfits, leveraging user insights to improve relevance and engagement.
